

## ICD-10-CM Short & Medium descriptions

*Context<sup>4</sup> Healthcare will release the database on August 1<sup>st</sup>. 2010*

### **The Industry Challenge:**

The healthcare industry adoption of ICD-10-CM standards will require complex system and process changes to successfully gain the clinical benefits of the new standards.

### **The Context Solution:**

The Context team has created medium and short descriptions for ICD-10-CM Volume 1 Tabular List. Our team of credentialed professionals performed a comprehensive analysis of the long descriptions and created meaningful and salient abbreviations to support accelerated integration and adoption of ICD 10 codes. The abbreviations also serve as an excellent learning tool.

### **Value Points:**

- Two products options to chose from and both include all 68,952 codes
- 35 Characters (Short)
- 45 Characters (Medium)

### **Product Features:**

Accommodate field restrictions, reduce data storage and improve application functionality

File formats include Comma Delimited (.csv) and Excel format (.xls)

Clinically accepted and commonly used abbreviations

Medium and short descriptions enhance user reporting choices and are unique as possible

An annual license purchase insures updates are maintained

## Sample Data Table:

Code	Category	Description	Desc35	Desc45
N00.0	Acute nephritic syndrome	Acute nephritic syndrome with minor glomerular abnormality	Acute nephritic syn w/glomerular abnorm	Acute nephritic synd w/glomerular abnormality
N00.1	Acute nephritic syndrome	Acute nephritic syndrome with focal and segmental glomerular lesions	Acute nephritic syn w/glomerular lesions	Acute nephritic syn w/segmental glomerular lesions
N00.2	Acute nephritic syndrome	Acute nephritic syndrome with diffuse membranous glomerulonephritis	Acute nephritic syn w/membranous glomerular	Acute nephritic syn w/membranous glomerulonephritis
N00.3	Acute nephritic syndrome	Acute nephritic syndrome with diffuse mesangial proliferative glomerulonephritis	Acute nephritic syn w/mesangial glomerular	Acute nephritic syn w/mesangial glomerulonephritis

### About Context4 Healthcare:

Based in Naperville, Ill., Context4 Healthcare, Inc. develops and markets solutions for reimbursement challenges in the healthcare industry with automated solutions for complex medical claims coding and editing. Our solutions, together with a highly trained and experienced staff, enable healthcare organizations to reduce errors, claim denials, resubmissions, write-offs, run-away losses and claim-handling costs.

Privately owned, Context4 Healthcare is not affiliated with any provider or payor organization.
